**Step 1:** Slide the latch on to the handle shaft. Enter shed, close door and adjust latch so it is snug with the stud at the side of the door. Tighten up bolt on latch.

**Step 2:** Repeat steps 1 and 2 for second locking handle.

# KIWI SECURITY DOOR

**Step 1:** Once door is hung, position the Locking Stays so they slide into the Locking Brackets easily. Screw Locking Stays to Door Jamb.

**Step 2:** Attach 'T' Locking Handle with two 8x10mm screws. Slide on the hook and secure with a lock washer.

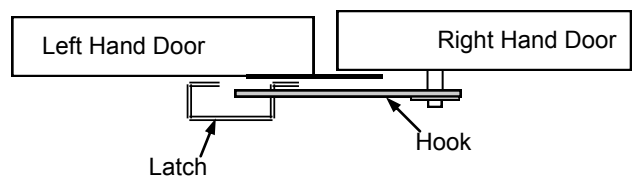

## SINGLE SLIDING DOOR

**Step 3:** On the left hand Door Jamb, position latch so that the hook on the door handle will be secure and go in and out easily. Rivet in place with four rivets.

## DOUBLE SLIDING DOOR

**Step 3:** On the back of the left hand door, position latch so that the hook on the door handle will be secure and go in and out easily. Rivet in place with four rivets.
