

# 2.4m Single-Level Workbench

## DESCRIPTION – FEATURES & BENEFITS

---

- 2.4m long x 600mm deep top: enough room to spread out a project, pot up a tray of seedlings, or lay out the tools for the job at hand
- Solid 90 x 45mm timber frame and legs, front and back rails the full length of the bench. Built to take real weight, not just look the part
- 15mm ply top for a flat, durable, work surface
- Comfortable 1000mm standing height for extended work without the backache
- Straightforward flat-pack construction - goes together with basic tools within an hour or so
- Fits neatly along the back wall of most Duratuf Lifestyle sheds, or works just as well as a standalone bench in a garage, carport or outdoor workspace

## PRODUCT BLURB

---

More space to get things sorted, your way. The Duratuf Lifestyle Workbench gives you 2.4 metres of solid, honest work surface. Built to slot into a Duratuf Lifestyle shed, or stand on its own in the garage, garden or workshop.

Whether it's going in your new shed or filling a gap in the workshop you've already got, the Lifestyle Workbench is sized to handle real projects. The sturdy timber framing and a durable ply top keep it simple, sturdy and easy to finish however you like.
